IDS 2200 International Perspectives in Sustainable Energy

Learn about alternative energy in Denmark—a world leader in the field! Participants will spend 15 days touring sustainable energy sites, factories and green houses across the country. Another highlight of the program are homestays with host families, giving students the opportunity to experience authentic Danish culture and build lasting friendships. Students from HCC will be joined by a cohort from Singapore resulting in a truly multi-cultural experience. The trip concludes with a day to explore Denmark's capital, Copenhagen.

“When it comes to traveling abroad, they say that the best way to truly know about something is to experience it. From my visit to Denmark I gained a deeper understanding of Danish culture and left with a thirst for more because of the hospitality I received from my host families and involvement in their daily life.”

Jacob Sosa, Denmark study abroad participant with his Danish host dad.
