Afternoon	Re-use in the textile industry	or Louvre Museum Picnic	Workshop 4	Les Canaux Location engaged in ecological actions	Presentation Workshop	Free time	
Evening					Bootcamp party		

The bootcamp is organized around 3 axes: Problems, solutions and actions. Challenge of becoming aware of the waste resulting from a particularly linear economy which does not give materials a second chance. Presentation of the School "récupérathèque" (a students' association promoting the re-use of materials), and the materials library. Discovering that design can be an excellent ecological catalyst thanks to its exploration of our lifestyles and our habits via the things we touch and own. Perceiving design as an interface between human beings and their environment.
